FULL-STACK DEVELOPER & DATA SCIENTIST

MARIA JOSÉ VALBUENA BUSTOS

With 3 years of experience as a Front-End Web Developer, Maria José has relocated from Spain to Indonesia and is training to become a Full-Stack Web Developer and a Data Scientist. She has skills such as SQL, Python and Machine Learning, acquired by completing internships and certifications that range from Big Data to Android App Development. Maria José is now building her portfolio and actively looking for a remote position, eager to take a new step in her international career.
